VOLUME XI, Nos. 1-12 (SEPTEMBER, 1960-AUGUST, 1961)

	PAGE		PAGE
A			
ABNORMAL position of retained roots -	229	BOLTON, R.: Treatment of a case of acute osteomyelitis without surgical intervention -	114
Abnormality of the labial surface of a maxillary central incisor -	159	BONNAR, EILEEN M. E.: Aspects of the transition from the deciduous to the permanent dentition -	59
Abstracts 10, 12, 16, 22, 36, 78, 88, 97, 103, 104, 108, 117, 125, 131, 136, 152, 157, 166, 176, 188, 190, 194, 206, 212, 230-2, 252, 259, 268, 278, 284, 296, 324, 327-8, 329, 340, 354, 378, 416, 418, 423, 441		Book Reviews (see Reviews)	
Aid to the clinical assessment of apical base relationships -	17	BREAKSPEAR, E. K.: Further observations on early loss of deciduous molars -	233
ALLDRITT, L. S.: The epithelia in the dento-gingival junction -	213	BRENCHEY, M. L.: Submerged first permanent molars -	105
ALLEN, FRANK J.: Incisor fragments in the lips -	390	BRIGGS, C. P.: The round-wire multiband appliance	167
Alveolectomy, palatal, in cases of close bite -	426	British Society of Periodontology, Proceedings of:	
Amalgam or gold? -	298	Bite guards, bite plates, and orthodontic treatment in periodontal disease, 126; Development of the gingival epithelium in the monkey, 314; The epithelia in the dento-gingival junction, 213; Experimental studies on reattachment, 351; The periodontium in oral surgery, 382; The practice of periodontology: I, Periodontology in general practice, 279; II, The practice of periodontology in the Royal Air Force, 280; III, Dental auxiliaries, 283. Preventive dentistry: I, Dental health education and its impact upon the public in the U.S.A., 89; II, Some observations on the personal oral hygiene of American citizens, 93; III, From kindergarten to college, 95. Some structural changes in periodontal disease, 191	
— silver, restoration with, Class II cavity preparation for primary teeth -	208	British Society for the Study of Orthodontics, Transactions of:	
American Dental Society of Europe: The concept of periodontal therapy to-day, 38; The Class II cavity preparation for primary teeth and its restoration with silver amalgam, 208		Aspects of the transition from the deciduous to the permanent dentition, Part II, 59; Biting and mastication, 23; Cases treated by extraction of permanent canines, 201; A coil spring retractor for removable appliances, 142; Common faults with removable appliances, 137; A daylight tracing box, 202; Further observations on early loss of deciduous molars, 233; Retraction of upper buccal segments using removable appliances, 439; The round-wire multiband appliance, 167; Serial models illustrating some spontaneous changes in the deciduous dentition, 109; Simple fixed-removable appliances for canine and premolar alignment, 140; Some factors concerned with the reduction of excessive incisor overbite in Angle's Class II, division 2, type of malocclusion, 394; Some orthodontic springs, 169; Some problems for consideration, 289, 356; Submerged first permanent molars, 105; Three cases showing marked increase in malocclusion in the maxillary incisor region, 171; Various types of extra-oral anchorage appliances, 203	
Anaesthesia, general, trends in, for dentistry -	272		
Anatomy, functional, of the rest position of the mandible -	178		
Anchorage appliances, extra-oral, various types of	203		
Angle's Class II, division 2 type of malocclusion, excessive incisor overbite in, factors concerned with reduction of -	394		
Apical base relationships, an aid to the clinical assessment of -	17		
Appliance, removable, retraction of upper buccal segments using -	439		
ARDRAN, G. M., and KEMP, F. H.: Biting and mastication -	23		
ARPA International Congress -	191		
Aspects of the transition from the deciduous to the permanent dentition -	59		
Audio-analgesia -	132		
Auxiliaries, dental -	283		
Authorship -	265		
B			
BASE relationships, apical, an aid to the clinical assessment of -	17		
BERRY, D. C., and WILKIE, J. K.: Lip and tongue behaviour in relation to prosthetics -	334		
BINGAY, J. V.: Dental auxiliaries -	283		
Bite, close, palatal alveolectomy in cases of -	426		
— guards, bite plates, and orthodontic treatment in periodontal disease -	126		
Biting and mastication -	23		
Björn, HILDING: Experimental studies on reattachment -	351
